

WHY WE DO THE THINGS WE DO AT NINETY ACRES

We believe in using Biodynamic, Organic and Sustainable ingredients and wines whenever possible. We believe it's not only important to support local agriculture, but that food and wine produced in this way can lend tastes and textures that make the dining experience incredibly unique.

Sustainable agriculture refers to the ability of a farm to produce food indefinitely, without causing irreversible damage to ecosystem health. Two key issues are biophysical (the long-term effects of various practices on soil properties and processes essential for crop productivity) and socio-economic (the long-term ability of farmers to obtain inputs and manage resources such as labor).

Organic farming is a form of agriculture which avoids or largely excludes the use of synthetic fertilizers and pesticides, plant growth regulators, and livestock feed additives. As far as possible, organic farmers rely on crop rotation, crop residues, animal manures and mechanical cultivation to maintain soil productivity and till to supply plant nutrients, and to control weeds, insects and other pests.

Biodynamic agriculture, or **biodynamics** is an organic farming system (but predates the term). It is based on the anthroposophical teachings of Rudolf Steiner, particularly on the eight lectures given by him in 1924 at Schloss Koberwitz in what was then Silesia, Germany nowadays Poland (close to Wroclaw). At the time Steiner believed that the introduction of chemical farming was a major problem. Steiner was convinced that the quality of food in his time was degraded, and he believed the source of the problem were artificial fertilizers and pesticides. However, he did not believe this was only because of the chemical or biological properties relating to the substances involved, but also due to spiritual shortcomings in the whole chemical approach to farming. Steiner considered the world and everything in it as simultaneously spiritual and material in nature, an approach termed monism. He also believed that living matter was different from dead matter, a viewpoint commonly referred to as vitalism.

The term *biodynamic* was coined by Steiner's adherents. Any biodynamic produce is also organic. A biodynamic farm works exactly the same as an organic farm in using no pesticides, herbicides etc., but there are various agricultural methods which are unique to biodynamic farming. These include field and compost preparations and the use of an astrological calendar to determine times of planting and harvesting. Biodynamic produce is certified by Demeter, but can be certified by an organic certifying body as well. A central aspect of biodynamics is that the farm as a whole is seen as an organism, and therefore should be a closed, self-nourishing system.

Cheers!

John Jansma Wine Director

Vanessa Da Silva Sommelier

WINES BY THE GLASS

SPARKLING

- 100 **Cava Brut Reserve** Dibon (Penedès, Spain) NV Organic
A traditional blend of Xarel-lo, Parellada and Macabeo from this 100 year-old winery. All work is done by hand. 7g/l dosage.
- 3268 **Champagne Brut Tradition** Pierre Brigandat & Fils (Côte des Bars, France) NV Biodynamic
1st generation winemaker named his estate after his father, Pierre. 100% Pinot Noir from the southern most village. 5g/l dosage.

WHITE

- 4531 **Sancerre** Karine Lauverjat (Loire Valley, France) 2016 Sustainable
Thirty year old vines, twelve hectare estate. Mineral driven, lemon peel, white flowers, crisp finish.
- 4544 **Chardonnay** Alba Vineyards (Warren Hills, New Jersey) 2015 Sustainable
Chardonnay from New Jersey? Yeah, we were shocked too. Ripe & oaky, this is one of the best surprises we've tasted in 2017.
- 4479 **Saint-Aubin** Domaine Lamy-Pillot 1er Cru En Créot (Côte de Beaune, France) 2015 Organic
The En Créot vineyard is a monopole (one owner) in the Côte du Beaune. This Chardonnay is elegant & pure.
- 4445 **Vermentino** Il Torchio Il Bianco (Liguria, Italy) 2016 Organic
This coastal region is extremely steep and often limited in production. Smell this & close your eyes; you'll think you're at the beach.
- 4263 **Albariño** Pionero Mundi (Rias Baixas, Spain) 2015 Sustainable
People fell in love with Jose Estevez's home made wines so he purchased this estate on granite soils to make enough for you too!

RED

- 4025 **Pinot Noir** Natirar Estate (Willamette Valley, Oregon) 2015 Organic
From the gorgeous 2015 vintage, this is a blend of different Pinot Noir clones and vineyard sites throughout the Willamette Valley.
- 4444 **Luberon Rouge** Chateau La Canorgue (Rhône Valley, France) 2015 Biodynamic
Situated between Avignon and Provence, this blend of Grenache and Syrah smells like a spring garden. Rich & floral.
- 4280 **Petite Sirah** Le P'tit Paysan (Monterey County, California) 2013 Sustainable
Winemaker Ian Brand calls this wine "backyard barbeque" & we agree. Loads of dark fruits & structure. Great Zinfandel alternative.
- 4482 **Carema Nebbiolo** Produttori di Carema (Piedmont, Italy) 2013 Sustainable
Coming from a cooperative of small growers in northern Piedmont, this Nebbiolo is dark, earthy & nuanced.
- 4652 **Cabernet Sauvignon** Cultivar (North Coast, California) 2015 Sustainable
Under the watchful eye of Julien Fayard from Ch. Lafite comes this rich expression of pure Cabernet Sauvignon.

CHABLIS: PATRICK PIUZE

After running a wine bar in Montreal for two years, Patrick Piuze moved to Burgundy in 2000 and he spent the harvest with Olivier Leflaive in Puligny-Montrachet. Shortly after, Piuze was entrusted with the vinification of Laflaive's new Chablis plot and Patrick spent four years there honing his skills as a winemaker. After Jean-Marc Brocard recruited him to be cellar master and head wine maker, he left to set out on his own and bottle under his own name. Not one to ease into things slowly, his first vintage in 2008 consisted of 20 different bottlings, all Chablis except for one.

The approach in the cellar is hands-off; indigenous yeasts are used and nothing is added nor taken away.

Patrick Piuze is obsessed with drawing out the essence of terroir and every bottle is very specific, highlighting the parcels the wines come from. Even his entry-level wines, where most producers would blend plots together, he bottles five separate "Terroir" cuvees at the Villages level, each labeled with the name of the village of origin.

Despite doing nearly all the work himself, Piuze seems to have limitless energy and drive. Now, nearly a decade in, Piuze has proven himself a legendary producer.

ROSÉ WINES

Traditionally, rosé is made by crushing red grapes and allowing the juice to sit with the skins for just a few days, usually around 48 hours, to allow the juice to obtain some of the color of the skins, but not enough to turn it dark red. The skins are then removed before fermentation, allowing the juice to remain pink or light orange, or raspberry red; and for the wine to obtain its crisp, fruit-filled flavor. Whether from Austria, France, Spain, Italy or California (and beyond) they tend to lean toward a dry, crisp style.

CORISON WINERY, NAPA

"I handcraft my two Napa Valley Cabernet Sauvignons, without compromise, from some of the finest vineyards in the Napa Valley- a region that I believe can make Cabernet as well, or better, than any other place in the world. These benchmark vineyards are located between Rutherford and St. Helena, where deep, stony alluvial soils promote the ideal growing conditions for the Cabernet vine. These vines regularly produce some of the most concentrated and superbly ripened fruit anywhere.

My winegrowing philosophy is to make complex wines that walk the fine line between power and elegance.

My winemaking techniques are very traditional, using only small French oak barrels sourced from several forests for complexity.

It is my job to let the vineyards speak." - Cathy Corison

DOMAINE DE LA GRANGES DES PÈRES, VIN DE PAYS DE L'HÉRAULT

"Founded in 1992, Grange des Peres has quickly become arguably the greatest and most respected domaine in the entire Languedoc region. Located in the village of Aniane, the estate is run by former physiotherapist Laurent Vaillé. His impeccable résumé includes stints with Gerard Chave and Francois Coche-Dury, and, as Andrew Jefford writes in *The New France*, "...this background in wine-craftsmanship is evident in every bottle that comes from his cellar." The red sees up to two years in wood, but the oak comes across as seamlessly integrated even upon release. There are also incredibly miniscule quantities of a suave, polished white, made from Roussanne and Chardonnay. Extremely conscientious viticulture -- low-cropping young vines, harvesting ripe and healthy fruit -- are de rigueur here."

ITALIAN RED WINES

GIACOMO BORGOGNO, PIEDMONT

"The name Borgogno is connected to one of the oldest wine cellars in Piedmont. Started in 1761, Giacomo Borgogno became the supplier of the boarding school for the sons of the officials of the House of Savoy army.

As time progressed, Borgogno became more and more famous and appreciated by being the official wine for the celebration of the Italian Unification, and various other stately banquets.

For centuries, Borgogno House has been in the habit of bottling considerable amounts of the best vintages and putting it aside for further refinement for at least ten years. This results in extraordinarily rounded and balanced wines that acquire treasured and diversified aromas. Before being released, the bottles are checked one by one and decanted through a delicate but rapid manual operation that also allows elimination of sediments."

COMPAÑIA VINICOLA DEL NORTE DE ESPAÑA

"CVNE (Compañía Vinícola del Norte de España) is one of the most renowned and historic bodegas in all of Spain.

Founded in 1879 by the Real de Asúa brothers, Eusebio and Raimundo, the company has been an integral part of the Rioja region's ascendance in the world of fine wine. With their combination of traditional roots and innovative vision, CVNE has been one of Rioja's most reliable sources for high quality wine.

Today, CVNE is comprised of three separate bodegas: Cune, Viña Real, and Contino.

Each of the three estates produces a distinct style of wine from a distinct terroir, and each of their flagship bottlings occupies a well-deserved place in the pantheon of great Spanish wine."

R. LÓPEZ DE HEREDIA

Little about López de Heredia has changed in the 132 years since its founding. The family adheres to a winemaking doctrine blueprinted in the 1880's--to make wine only from their own vineyards, using natural yeasts, long aging in the wood, and no filtration at bottling. The winery and vineyards, some of the first in the region, are located in the Rioja Alta's capital city, Haro. Unlike most of its competitors, now owned by outside investors, López de Heredia is owned and every detail of its operation is handled--by the family who founded it. The bodega is now in the capable hands of the family's youngest generation, Maria José, Mercedes, and Julio Cèsar. López de Heredia helped the region develop the approach that still defines it today: reliance on Tempranillo grapes, long aging in old American oak casks, organic farming practices, and a style that aims for silky elegance rather than muscular fruitiness under a veneer of new oak.

LA RIOJA ALTA S.A.

Few dispute that La Rioja Alta S.A is the leading quality oriented producer in the Rioja, focusing on making wines in the traditional Rioja manner. The company is adamant about not using French oak, keeping the unique Rioja style which has been developed since the end of the 19th century. La Rioja Alta S.A. is unique in its ability to supply large quantities of fully mature wines of world class quality. The wines are kept at the bodega a minimum of 5 years before release, though some are kept for as long as 15 or 20 years. The Bodega was formed in 1890 as a partnership of 5 quality-conscious growers keen to exploit the export potential for well-made, 'modern' Rioja (the founding date is celebrated with the annual 890' Gran Reserva bottling. In 1904, La Rioja Alta absorbed Bodegas Ardanza, and gained access to some of the finest vineyard in the Rioja Alta district. The luxury '904' bottling commemorates this important milestone in the company's development.

BODEGAS Y VIÑEDOS VEGA SICILIA

To lovers of Spanish wines, Vega Sicilia needs no introduction. The 100 hectares estate is by far the most prestigious wine producer in Spain, ranking with the world's greatest names.

The *Valbuena* is released after 5 years (3 years in cask and 2 years in bottle). The *Unico* is always at least 10 years old and sometimes as much as 25 years old before release, depending on the quality of the vintage and its capacity to age for long periods in cask and bottle. The wines are truly remarkable with enormous complexity, and richness. The soft velvety texture, gorgeous mature flavours of black fruit, leather and oak are absolutely unique.

Alion was founded by the legendary estate, in 1986. The first vintage to be commercialized was 1991.

The wine made here is a more modern wine than the Unico or Valbuena. The winery is located just down the road from Vega Sicilia and the wine is made from 100% Tempranillo from 37 hectares that were planted in 1986 as well as some younger vines planted at Vega Sicilia.
